Saint Aloysius College, Jabalpur
Teaching Skill Development by Student-to-Student Teaching

Date: 1st to 17th November 2020

Teaching Skill Development by Student-to-Student Teaching activity was organised by the students of third year for the second-year students and first year students. The third year taught the topics of the curriculum of the second year and first year. The activity was conducted on 17th November 2021 on online platform.

The goal of the activity was to have cooperative learning activities to have a collaborative experience to interact productively with their peers. This activity engaged all students and allowed them to take an active part in their own learning. It increased their retention of the content and made the education process more fun. The students were asked to make the lesson plan and prepare the presentations. There were 135 students in the activity. At the end the activity was concluded with the teachers and students reflection and feedback. Students were very active in the development of their learning, establishing self-directed learning, and making the learning process more interesting and inspirational. The overarching process of students-teaching-students was very rewarding.
