

**Department of Management**  
**Saint Aloysius College, Jabalpur**  
**Online Workshop on Technical Analysis of Stocks**

**Date : 8<sup>th</sup> -10<sup>th</sup> February 2021**

Mediocre people work at to do better, but people seeking excellence wok at their best. We the department of Management envision to create world class corporate leaders for the global economy. We work with the objective of developing the analytical and resulted oriented temper in our learners thereby specifically disseminating academic and applied knowledge in the field of business management.

To enhance student's competency and employability skills the department regularly organizes guest lectures from experts from corporates and business schools. This year the department had organized guest lectures on Stock Trading by Mr. Hemen Kapadia and Mr. Amogh Gothoskar, member of BSC Broker Forum Ltd. Mumbai, as the guest speakers on 8 to 10 February 2021. 62 students participated in the workshop. The students were enriched by the insights brought to the core areas of Stock Exchange and Stock Trading in the business world, the session indeed brought good learning experience to the students.

### How does a Mutual Fund Work?

The diagram illustrates the mutual fund cycle. It features three main components: **INVESTORS** (represented by three stick figures), **FUND MANAGER** (represented by a stick figure with a podium), and **STOCKS / SECURITIES** (represented by a document icon). The flow is as follows: **INVESTORS** "Pool their money" with the **FUND MANAGER**. The **FUND MANAGER** then "Invest in" **STOCKS / SECURITIES**. These investments "Helps generate" **RETURNS** (represented by a document icon with a dollar sign), which are then "Delivered to" the **INVESTORS**.

- Pool of investors money.
- Invested according to pre-specified investment objectives.
- Benefits accrue to those that contribute to this pool.
- There is thus mutuality in the contribution and the benefit.
- Hence the name 'mutual fund'.
