JUDGE :- ABHISHEK AGARWAL (B.O.D.TIME)

WINNER :- DHIRAN SINGH.

2nd POSITION :- SIMRAN

AGRAWAL

"Not just for academics but for future they are oriented!"

Dhruv Singh

- my project was basically the usage of construction material at cheaper cost to produce better quality of infrastructure. The price of the construction of infrastructures will be reduced and hence the client can get better quality at cheaper price. The target market are constructors / builders however other people can also purchase.
Thankyou.

My business model was basically based for all the "sweet lovers" to get a particular place with varieties of specialised sweets. An area with 5 different cabinets controlled by "famous halwa's".

Simran Agrawal

"As a freshmen, presenting an idea ^{built} was a great experience. Looking forward for more such events" Thankyou.

"The event involved ideas over 4 teams within which every student got to know about the formulation of one's own business"
