Report on Economics Awareness Programme

The Department of Economics organised an Economics Awareness Programme to familiarise school students with the importance of economics, its diverse career opportunities, and the academic activities offered by the institution. A total of 29 students from the college participated in the programme and interacted with more than 100 Class XII students from Kendriya Vidyalaya No. 1, GCF, and Kendriya Vidyalaya, CMM on 13th October 2026.

The programme included discussions on various career prospects in economics, along with quizzes and fun games to enhance students' economic awareness and encourage active participation.

The college students introduced the visitors to the Economic Forum, highlighting its activities, including guest lectures, environmental awareness programmes, budget discussions, and industrial visits. They also showcased glimpses of the college's Jubilee Celebration and informed the school students about the certificate courses offered by the institution and its academic and infrastructural facilities.

The Principal, Dr. Singhai, appreciated the college's academic initiatives and facilities and expressed interest in encouraging school students to participate in various activities organised by the college in the future.The programe was an engaging and informative initiative that enhanced awareness about economics, highlighted career opportunities, and strengthened the association between the college and the participating schools.
