From the Desk of the Principal

"Human progress is neither automatic nor inevitable...Every step towards the goal of justice requires sacrifices, suffering, and struggle; the tireless exertions and passionate concern of dedicated individuals."

Martin Luther King, Jr.

Youth of every country plays an important role in shaping the future of any nation. They are the manifestation of various colours and represent education, employment, intellect and a great sense of orderliness essential for a country's progress. They're well tuned-in with the complexities and difficulties of the time and many work persistently on mastering their skills that aid them fulfill their dreams and simultaneously enabling them to contribute valuably to the nation's growth. Today, the call is for the youth of India to take initiative to lead their country and also work for the upliftment of those sections of society which often go neglected.

Mahatma Gandhi aptly said, "We must become the change that we want to see in the world". Until we take a social responsibility to bring in a change in society we may not flourish but perish soon. It is time that the youth realize their responsibilities and invest in their time, energy and ideas for efficient and continuous progress which is never achieved without hard work, strive and sweat.

I appreciate the efforts taken by the student editors and faculty members of the Department of English for taking trouble to bring out Aloysian newsletter. I wish them all the best for every success. My blessings and prayers are always with them.

Rev. Dr. G. Vazhan Arasu

COLORS OF SENTIMENTS

In the World of Dreams and Reality,
Minds are pure but lack kindness.
They lose the instinct of Loyalty,

Promises are taken away by streams.

Dreaming is a superficial Beauty,
Filled with wonderful colours.
Important is converting dreams into reality,
And getting a life like the sparkling star.

Being sometimes sad and happy,
May cause hindrance in your dreams.
Try not to discourage yourself,
Work hard and achieve success.

Life is filled with opportunities ,
Just grab them at the right situations.
Target it at the top and fly,
Hold on your breath and find ways.

Be confident because over-confidence may destroy,
Tackle things with care and grace,
And be prepared for its marvelous outcomes everyday,
Give the best and get sterling in return.

Become a social being and be a bestowal ,
Rather than being a taker.
Avoid sumptuous overpower heart,
And enlighten your life with pure souls.

Life is a wonderful gift of God,
Try to live it to the fullest.
One wrong move may destroy you,
But Endeavour will beautify you.

THE VALUE OF LOVE

Two hearts ran to the end of the world . They recognized each other's eyes at the final border of Infinity . In that particular moment , they hugged each other.

No one dares to separate them . They are in their own world of love , trees of affection , rivers of attributions , serene oceans of care and faith , land of support and whole atmosphere of endlessly charming love .

FRAGRANCE OF LOVE

Let him kiss me with full of love
For your love is more delightful than wine
Oh dear! Your eyes are like dove
I will never let you go cause you are mine .

While my love was at his table
My perfume spread its fragrance
You are the foundation of my life which is more stable
Among the young men you are full of brilliance.

My beloved is to me sachet of myrrh
Flowers appear on the earth and the season of singing has come
My heart burns within me like fire
And by your lovely and sweet words I like to be dumb.

His left arm under my head
And I embrace him ; we lie on verdant of bed.

PRAISE OF LOVE

I found love in this garden of hate

I found a fountain of mercy in this water gate

Both are amazing to me as I gaze

When I think of that beauty my eyes get filled with faith

Love much beautiful than any other

Showered as blood rather water

Blood so dark and thick

Vescour of my inequities and mistakes

But yet it told its love to me

Every hour of trouble and pain

How I ignore this immeasurable love glaze

Even if I am feeling sin greased

It cleanses me wholly as a dove .

Feba Susan Thomas
BA I (Section 'A')

YOU NEVER SAID GOODBYE

You never said I'm leaving

You never said goodbye

You were gone before I knew it

And only God knows why .

A million times I needed you

It broke my heart when I lost you

In life I loved you dearly

In death I love you still .

If love alone could have saved you

Aunt never would have died

LIFE IS ALL ABOUT CHOICES

Life is all about choices ...

It's up to you...

Whether you choose being joyous over being sorrowful

Whether you choose a bunch of true buddies over a crowd of fake freaks

Whether you choose being flattered over being praised

Whether you choose giving over getting

LIFE IS A
SUM OF
ALL YOUR
CHOICES

Whether you choose being ridiculous over being boring

Whether you choose complimenting over complaining

Whether you choose being animated over being monotonous

Whether you choose being a skylark over being a petty turtle

Whether you choose thorny roses over timid lilies

Whether you choose living over existing

Whether you choose enjoying your own company over being lonely

Whether you choose creating over craving

Life is all about choices ...

It's up to you...

WHAT OUR GIRLS ARE MADE OFF ??

Made of flowers and of rings ?
Made of gossips and of marmalade ?

This is what our girls are made of ??

NO...

This is what our girls are made of-

“Made of iron”

And of striving and self dedication

And of battles

Made of perseverance and of grace

That gives pride to the entire nation

Made of bruises and of punches

Made of bravery and of clenched fists

Made of independence and of skill

Of passion and heart and of dignity

Made of will that’s harder than stone

Made of strength and of fire

Made of freedom from other peoples opinion

Made of accomplishments and of achievements .

This is what our girls are made of

“You’re made of what you do .”

SHE'S A GOOD TIME GIRL

She wants to be herself,
She wants to be her reflection ,
She wants to dance on the beat inside her mind .

You think she is quiet ,
Be her companion , she will tell you all lines .

She is brittle , hold her like a rose ,
If you clip her wings , think twice !
She will punch you like a Bull's – eye .

Being kind is her power ,
Don't cheat , it's like throwing her from a tower .

You may get thousand girls ,
But not like her , she's a Good Time Girl .

LITERACY

Every book I open
Every story I read
Another adventure I explore
Another life I begin

I live with them
I laugh
I run
And cry with them
I just don't belong
To the real world
But however conceivably
In literacy I find a place

At the end
The pages ripped my heart
They pull me apart
They ruined my life
And they changed who am I

Yet without them
My life is nothing
I am incomplete

The author who holds the knife
Dangles it over my head
With each characters death
A new tear in my soul

A new life in literacy
A gift not all can receive
Without literacy
I would have no existence of me .

PERSISTENCE OF VISION OF LIFE

Standing on a cliff , a sense of disorientation and confusion clouds you .You are not only afraid of falling , but you also fear succumbing to the impulse of throwing yourself off . Nothing is holding you back .Dread , anxiety and anguish rise to the surface .

The Persistence of Vision

You can do whatever you please – move forward into the yawning abyss or remain where you are . It's up to you . The realization that you have absolute freedom to decide the course of your life – jump or don't jump – is as dizzying as vertigo , which suggests that we face the same anxiety in all of life's choices . Every action we take is a choice , decided by us and no one else . Life is a series of choices – and that these choices bring meaning to our life – is a cornerstone of existentialism . Rather than offloading the responsibility onto society or religion , each individual is solely responsible for making his / her life meaningful and living it authentically .

Why is it that when faced to death , our daily projects seem meaningless ?

A friend or relative dies and this propels us on a new course ; we quit our job and in turn stop worrying about everyday concerns and start taking interest in areas that we had previously ignored . Instead , we should give a fresh start to everything which drops out , and should do more of the things which makes ourselves happy .

Your Life , Your Choices , Your Results .

STRONGEST SISTER

She asked me to be me
Cheerful, happy and carefree .
She then asked me to shine bright
I understood , she wants me to be the light .

Pretending so strong and rough ,
Stone heart , outwardly tough .
She thought I would never know ,
But understanding her is easy ,I can do it in arrow .

She wanted me to do the things she couldn't
Always stopped me from doing things which I
shouldn't
She never wanted me to select her career ,

But wanted me to break the barrier .
She thought I am so strong ,
Never underrated , never wrong
But I know she's stronger than me ,
If I am the beautiful leaf ,my sister is the trunk of the tree .

GRATITUDE..... It's not a big deal ...

Feel grateful for that for that everything which makes your life worth living

Feel grateful for that every being who makes you feel easy

Feel grateful for that every moment which makes you feel rejoiced

Feel grateful for that every voice which wakes you from sorrow

Feel grateful for that every sight which makes you see the world as a place worth
existence

Feel grateful for that every sprinkle that makes you feel fresh

Feel grateful for that almighty who has given you this opportunity to feel grateful

Feel grateful for your ownself who will lead you to ...ECSTASY

I WANT THAT INDIA BACK

The golden bird with rich Culture ,
Widely heard for its Treasure ,
Remembered for great kings and saints

Who took birth on that Land ,

That Dignity ,

That greatness,

Now , where is that

I want that India back.

Rulers and dynasties came and went,

But no one too long remained

Found defeated and turned away

Against its unity and satyagraha

That brotherhood ,

That equality,

Can ,anyone return me that ,

I want that India back.

The relation of a teacher and a student

For which famous was my land

Where youth became inspiration

And followed away from corruption

That zeal ,

That spirit,

Youth can only return me that

I want that India Back.
