

GUEST LECTURE BY Dr. M.K. Tiwari (Former Scientist ISRO and NPL)

Former Director, South Asian Regional Centre for the Study of Global Environmental Change

Dr. M. K. Tiwari (Space & Environment Scientist)

Dr. Tiwari is a native of Jabalpur **and Alumni of St. Aloysius College (Autonomous) Jabalpur**. Dr. Tiwari did his B.Sc. from St Aloysius College in 1970 and then Master's Degree in Physics from the Post Graduate Teaching Department of Rani Durgavati University of Jabalpur in 1972.

Dr. Tiwari delivered his lecture on Researches in building and executing multi-disciplinary in many exotic areas of science. Among these are:-

- 1). Evolution of planets in our solar system.
- 2). Origin of life and space biology.
- 3). Analysis of moon rock samples.
- 4). Study of X-ray and gamma-ray sources in our galaxy using space-borne detectors.
- 5). Advanced astronomy using largest telescopes.
- 6). Zero gravity science experiments using the Euro-American Space Shuttle and Spacelab.
