ABOUT PBL&AAQHE-2016

Project-based learning engages students in deep thinking while connecting their learning in the classroom to the world around them. It is an effective and enjoyable way to learn - and develop deeper learning competencies required for success in college, career, and civic life. PBL enables the educators to design effective and rigorous technology-infused lessons, manage and implement complex technology projects and move from product presentations to presentations of learning. Therefore PBL engages students in content learning through student-centered performance tasks that promote depth of knowledge and high-level thinking. Academic Audit of educational institutions in India is an evidence-based process carried out through peer review and forms part of the Quality Assurance Framework. Academic audit is an approach to managing the quality and standards of academic work including teaching and learning, research, consultancy, knowledge transfer and community engagement.

Academic Audit evaluates an institution's policies, systems, strategies and resources for quality management of the core functions of teaching and learning, research, knowledge transfer, consultancy and community service using the audit criteria.

OBJECTIVES

- To analyse the policies and practices that foster quality in Higher Education.
- Identify and articulate pedagogical competencies required for quality teaching.
