“Integration of Virtual Competencies towards Authentic Learning”

With the changing educational realms, embracing the technological advancements, the college this year employed the theme of "Technology-Enabled Teaching & Learning" with the objective of “re-learning”, significantly towards enhancement of faculties’ skills assuring authentic learning of the students on digital mode. The new “New Normal form" of our work was not limited to only moving teaching and learning contents into digital space, but demanded adequate navigation of the requisite technology.

During this shifting, the changing function and scope created competitive advantages for the learners and the college as a whole. The college created a benchmark, by recording approximately 4000 e-lectures by the teachers. The technical skill-set gave 40% of our teaching fraternity, an opportunity to be a part of the e-content creation for MP State Higher Education. For better access to students, these e-lectures were uploaded on the Cloud, through Moodle platform.

In-house training programs, Faculty Development programs, procurement of high video conferencing tools for lecture recording (high-end camera, pen tabs, high-end laptops with LAN network), E-notes, E-lectures (of classes taken), E-books and separate remedial classes for the students as per their learning demands were constructs to this initiative.
