UF019832547	Pranjali Verulkar	M.A.	IV SEMESTER	PAPER I	Student	Excellent	Lecturers have been focused on skill enhancement of each and every student in a way that various opportunities were provided to us all like essay writing, conducting of voting awareness week, youth parliament etc encouraging us to develop ourselves beyond the academic boundaries.			Students in the classes have been provided with the best surroundings, enhancing their personalities and focusing on over all character and personality development.	Lectures focused on not just the syllabus but learning outside it as well through discussion of current affairs, political analysis, presentations by students and other effective methods.

UF430257198	Prachi Namdeo	B.A.	III SEMESTER	PAPER I	Alumni	Excellent	More emphasis should be on the applications of the opted field of study. Focus more on inter disciplinary activities of many courses.	Focus more on practical aspects. Projects and internships should be given more weightages as evaluation component. Industrial experts should be invited to deliver guest lectures.	These skills should be improved and training programs should be organised to improve the placement opportunities.	Curriculum should also focus on extending the areas of environment and its effects on the future generations and gender awareness programs to be organised also gender sanitization program to be organised.	When a course is designed so that the learning goals align with activities and assessments, it can help students develop conceptual awareness, learn to synthesize ideas, and begin constructing their own knowledge.

IV SEMESTER	PAPER I	Student	Excellent	We have skill development course so we learn lots of skills and I want to suggest some thinking, interpersonal, management, business skills should be added in our curriculum.	In our first year their is a course which is being taught by teacher so it's very important in a curriculum to enriched the qualities which you have and also connect people to start a business.	Msc zoology is the broader subject we have learned practical and theory as well so it's become easier to get employment after complete this course you can further go through in our education also become professor, teacher, scientists, zoologist, officer.	Their is no gender issues in our college everyone would get a chance to express their talent in every aspects more focus on ethics and human values because it's going to change the society.	
UF825963701		B.Com	II YEAR	PAPER I	Industrialist	Excellent	Different languages were taught which gonna help me a lot in the corporate sector irrespective of the field I'm gonna choose	So I have a my own business if I have to expand my business or want to go on a new sector for business or do a entrepreneurship it help me alot.	So learning a tax procedure and many more topics on tax it help me to file a gst invoice and get a knowledge about the tax laws of India.

UF867092531	Jewel Jenifer Noronha	M.Sc.	II YEAR	PAPER IV	Alumni	Very Good	Now that I am Alumni, and I am pursuing higher studies from Indian Institute therefore the need to learn Excel in the most recent operating system is required. Linux might be good for basics but the current need is the Excel of Windows. Another skill enhancement is of public speaking, there are		Since, employability is a part of curriculum therefore I would suggest that there should be companies who recruit Life Sciences should be invited for providing placements to students.
