## **Institutional Distinctiveness**

### **“ALOYSIAN WHOLE PERSON DEVELOPMENTAL PARADOX: OUTCOMES MAGNIFIED”**

The Aloysian fraternity holds that every student is an individual with special abilities, aspirations, and passions—more than just a brain. The college embodies profound care and responsibility for each learner, becoming attentive to each student's skills, learning diversity, and career concerns connecting it to, local, national, and international requirements. This reaffirms our institute's vision of "transforming and developing young minds towards a value-added enlightened society." Realizing the concept into reality is the "Aloysian Whole Person Developmental Paradox," a complex collaborative method that links student-to-student learning with society and the environment as a whole, is student-centered, and extends learning beyond the curriculum. According to the whole person developmental paradox, students live in a web of connections, interdependent systems, and interconnected arrangements, accepting change as they go.

**AWPDP embraces 5 core dimensions :**

#### **DIMENSION 1: ACADEMIC DEVELOPMENT**

The fundamental element that raises the college to the level is academic excellence. The college guarantees academic success by placing a strong emphasis on inclusivity and accessibility to high-quality education, offering a learning atmosphere that facilitates the sharing of information. With the use of technology-enhanced tools, collaborative tools, and projects-based learning, we may

implement student-centered, diverse teaching practices that foster research and innovation among students by allowing them to learn through reading, experience, and debates.

#### **DIMENSION 2: GLOBAL COMPETENCY DEVELOPMENT**

The university places a strong emphasis on enhancing global competencies under the auspices of global education, offering courses and forums for discussion that support students' overall development. Moreover, skill development is achieved at the college level through the design of numerous developmental activities, vocational courses, certificate and diploma programs, computer training, intensive training for productive professionals, and personality development exercises.

#### **DIMENSION 3: COMMUNITY ENVIRONMENT RELATIONSHIP**

The college promotes education that is centered on developing constructive relationships between students and the community and environment as part of its institutional social duty, creating future citizens who will be socially responsible. Students blend social and intellectual development with personal and societal progress during this phase through the activities of NSS, NCC, and other clubs. The college's ISR supports students as they grow into compassionate people who uphold social responsibility. Outside of the classroom, ecocentric education involves nurturing activities that involve the environment.

#### **DIMENSION 4: GLOBAL & PEACE EDUCATION**

The college not just emphasis on academic excellence, not only at the national level requirement but also to match at the international skill level requirement. The peace education Program further strengthens the students emotionally sensitize to universal brotherhood and equality. Certificate Programs workshops in the Peace Program fostered largely a sense of broad thinking among students . Morning assemblies, celebration of nationally acknowledged days and person were comraded. Through specific elements like peace included in our curriculum and encouraging activities like yoga, we teach students to imbibe good values to build character and treat everyone with respect.

#### **DIMENSION 5: INNOVATION & ENTREPRENEURSHIP**

The college's Start-up initiatives, Entrepreneurship Development Cell, Institution Innovative Council, Entrepreneurship Development Club, and Atal Ranking of Institution on Innovation Achievement (ARIIA) Cell serve as catalysts for the development of students' innovative and entrepreneurial talents. Through invention, business concepts, and creative approaches, students showcase their original thinking while honing their employability skills.
