

## Department of Physics

### Celebration of Energy Conservation Day-2025

- Department of Physics, St. Aloysius College (Autonomous), Jabalpur, has organized Poster Presentation on 20/12/2025. 45 students of different departments were participated in the competition. Theme of the competition was “**Awareness of energy efficiency and conservation**”. Objective of the competition is to spread awareness about **energy efficiency and conservation**. Energy awareness pertains to the comprehension and recognition of the significance of conserving energy and embracing energy-efficient habits in everyday life.

Raising awareness through the creation of posters aids in disseminating the message that minor daily actions—such as conserving electricity, utilizing renewable energy, and minimizing waste—can lead to significant impacts. Additionally, it fosters innovation in clean technologies and motivates young individuals to pursue entrepreneurial ventures within the energy sector. As green startup initiatives centered on solar energy, energy efficiency, and intelligent solutions continue to emerge, students have the opportunity to become proactive participants in fostering a cleaner and more responsible world.

- Coordinators of the event are Dr. Pramod Chaitanya, Dr. Nisha Pandey and Dr. Poonam Pendke.
