Number of External Student participants: 200

Number of External Faculty participants: 08

Expenditure Amount: Approx. 1000/-

Mode of Activity: offline/ Onsite

Overview/Objectives:

1. To promote preventive healthcare: By providing free health check-ups and screenings, the camp can help to identify and address potential health problems.
2. To raise awareness about common health issues such as malnutrition, hygiene, and infectious diseases.

3. To provide access to basic healthcare services such as immunizations, deworming, and first aid especially for students from underserved communities who may not have access to regular healthcare services.
4. To enhance the skills and experience of B.Ed. students with an opportunity to practice their skills and gain valuable experience in providing healthcare services to a community in need.
5. To promote community engagement for the B.Ed. students with the community and build relationships with the school and its students.

Report :

The outreach activity had conducted on 07th October 2023 at Govt. High School Saliwada, village Saliwada (Jabalpur) by the Department of Education under the banner of Social Club of Education Department. The camp was held at the school premises .The main objectives of this progamme are to provide free Homeopathic medical checkup by Dr. Rajdeep Sonkar (M.D.) Pune and Dr. Govind Kant Potphode (M.S.) Jabalpur. The outcome of this Programme was to provide with access to basic healthcare services such as immunizations, deworming, and first aid for school students. The free health camp was a valuable experience for the students, the B.Ed. students and the school community as a whole.

The learning outcomes of the Programme were as follows:

- Students received free health checkups and screenings
- Students were educated about preventive healthcare
- Students received access to basic healthcare services
- B.Ed. students gained many social values like to serve the society, cooperation, coordination and team work.
- The school community benefited from the camp

The free health camp was a success and has the potential to make a positive impact on the health of the students and the community as a whole.
