Report:

Department of Botany and Microbiology celebrated World Earth Day on April 24th, 2023. Earth Day is an annual celebration that raises awareness of the need to protect Earth's natural resources for future generations. To this end, students from B.Sc. and M.Sc. from the department organized plantation drive. More than 22 plants were planted Near Dumna Road. Around 12 students participated in the plantation event. The Teachers coordinators of this event was Dr. Durga Ray. Student coordinators for the event were Adarsh Kachhi and Shivani Kachhi.

The learning outcomes of the Programme were as follows:

- Plantation drives have become a strong way to teach students about the environment and make them feel responsible for it.
- Planting trees connects students with nature and shows them that their hard work makes a difference in the world.
- It improves their critical thinking skills, and help make the world a better place.
- Students not only learn about the value of trees in preventing climate change, improving air quality, and preserving biodiversity, but they also plant and care for saplings, which gives them hands-on experience.
- The students get a sense of purpose, a sense of ownership, they are doing something for themselves, their college and society and they really enjoy that.
