#### EDUCATION (Literacy Programme)

“Education is the movement from darkness to light.” The transition of the ancient world into a contemporary world was driven largely by the enlightening wave of education. Education was the impetus which propelled the man to dispel the darkness of ignorance and step into the light of knowledge and understanding. It instilled in man the quality of being rational and aware of the things around him. The biggest contribution we as responsible citizens can render to the holistic growth of our country is to promote education. The despairing reality of our country India is the deprivation of a large section of society from their basic right to education. This noble cause could be achieved by undertaking following measures: -

- To make people aware about the significance of education.
- The government should come out with policies to make the quality of Indian Education System more advanced.
- To promote education, we must strive to make education accessible and feasible.
- The government should enhance the standard of the government schools to provide the students to relevant knowledge.
- The government should promote skill-based education in schools and higher educational institutions.

Our little efforts could bring a quite inspiring change in the society and make it a better place to live. Under the banner of ISR the team SAMARPAN provide various educational programs to the school children of five villages. These are
