## Workshop on Financial Literacy

Three days workshop on “Financial Literacy” organized by Department of Commerce, St. Aloysius College (Autonomous), Jabalpur in collaboration with VITTSHALA, The Financial Literacy cell, Shri Ram College of Commerce, New Delhi on 6th September to 8th September 2021. The workshop aimed to spread Financial Awareness among the students, facilitate the inclusion of deprived sections into the mainstream banking, insurance & financial services industry. 300 students participated in the workshop.

**SAVINGS VS INVESTMENT**

Saving and investing often are used interchangeably, but there is a difference.

- Saving is setting aside money you don't spend now for emergencies or for a future purchase. It's money you want to be able to access quickly, with little or no risk, and with the least amount of taxes.
- Investing is buying assets such as stocks, bonds, mutual funds or real estate with the expectation that your investment will make you money. Investments usually are selected to achieve long-term goals.

**LIFE INSURANCE**

Life Insurance refers to a policy or cover whereby the policyholder can ensure financial freedom for his/her family members after death.

The greatest benefits of life insurance include the ability to cover your funeral expenses and provide for those you leave behind. This is especially important if you have a family that is dependent on your salary to pay the bills.

When estimating the amount of life insurance coverage you need, remember to factor in not only funeral expenses, but also daily living expenses. These may include mortgage payments, outstanding loans, credit card debt, taxes, child care, and future college costs.
