DEPARTMENT OF BOTANY AND MICROBIOLOGY

St. Aloysius College (Auto.) Jabalpur, M.P

Session 2022-23

Training on Bonsai cultivation

Event: Training program on Bonsai cultivation

Date and Duration: 03.09.2022

Title: Bonsai making and maintenance

Resource person: Mrs. Manisha Dube, Expert (Bonsai cultivation); Managing Director, Dube Surgical and Dental hospital, JBP; President, Jabalpur Ladies Club, Patron; Friends of Tribal Society and Event Manager at Hamara Jabalpur.

Target group: UG and PG students of Botany and Microbiology

Objective: Skill development for startups and motivating for plantation in less space.

Outcome: Learners can demonstrate different techniques of making bonsai.

Report

Department of Botany and Microbiology in collaboration with Nature Club organized a DBT-Star sponsored Training Program on "Bonsai Cultivation" on 03.09.2022 (Saturday). The resource person for the program was Mrs. Manisha Dube, Expert (Bonsai cultivation); Managing Director, Dube Surgical and Dental hospital, JBP; President, Jabalpur Ladies Club, Patron; Friends of Tribal Society and Event Manager at Hamara Jabalpur.

The department set up this training programme with the intention of giving students the knowledge and abilities that would enable them to start their own business in this industry.

At the onset, Rev. Dr. G.Vazhan Arasu, Principal, St. Aloysius College, Jabalpur blessed the students and motivated them to actively participate in the program for bringing up productive results in near future. The program was hosted by Mrs. Roshni Choubey (Co-ordinator). The welcome note was given by Dr. Sonali Nigam, Head, Department of Botany and Microbiology. The training was attended by 46 students. The resource person very well demonstrated the overall process of making bonsai and also exhibited huge collection of her bonsai plants. This greatly motivated students to find their future in this field. Dr. Femina Sobin proposed the Vote of thanks. The program was successfully conducted by kind cooperation of faculty members Dr. Zareen Baksh and Durga Ray and Student Coordinators Pujita Rao and Adarsh Kachhi,

Session 2022-23

Guest lecture

Event: DBT-Star sponsored expert talk

Date and Duration: 31.01.2023

Title: Expert talk on "An insight on economic and industrial importance of algae."

Resource person: Dr. Kafeel Ansari, Faculty of Natural Sciences, University of Guyana, Georgetown, South America

Target group: UG Botany Students (38)

Objective: To inculcate knowledge and understanding of scope and importance of algae in industries, environment, health and other societal welfare.

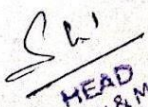

Outcome: Learners can name and define the role of economic algae used locally, nationally and globally

Report

Department organized an expert talk on 31st Jan 2023 on the topic " An insight on economic importance of algae". The resource person for the program was Dr. Kafeel Ansari, University of Guyana, Georgetown, South America.

The event began with welcome speech by HOD, Dr. S. Nigam followed by introduction of the expert by Mrs. Roshni Choubey. The resource person very well explained the role of algae in several industries and other fields majorly including environment, pharmacy, food, beverages, water and research. He discussed many case studies wherein the algae play significant roles. He also emphasized on recent technologies invented to utilize the algal products for various industrial, medical and environmental issues.

The program was done with the kind cooperation of all the faculty members of the department and the student coordinators Mr. Adarsh Kachhi.

Department of Botany and Microbiology

Workshop on Vegetative Propagation

Report

The two-day workshop on 'vegetative propagation' was held on 23-24 February 2023. The workshop was organized by Department of Botany and Microbiology. The objective of the workshop was to make the students understand the various modes of propagating different plants. The teacher in-charges were Dr. Femina Sobin and Dr. Durga Ray. A total of 38 students participated in the workshop.

The guest speaker of the occasion was Dr. Reena Nair, Assistant Professor, Department of Horticulture, Jawaharlal Nehru Krishi Vishwavidyalaya. On the first day of the workshop i.e. 23/02/23, she described that vegetative propagation is an asexual method of plant reproduction that occurs in its leaves, roots and stem. Artificial Vegetative Propagation is carried out by humans in the fields and laboratories. The most common types of vegetative reproduction occurring artificially include cutting, grafting, layering and tissue culture. The advantages of this type of cultivation is that the plants cultivated are genetically identical to their parents and can be cultivated faster as compared to growing them from seeds. This technique helps to establish nurseries, plants for performing experiments, cultivating rare and endangered plants. The speaker also shared that in case anyone wants to develop a startup on horticulture there are government support policies available like Rashtriya Krishi Vikas Yojana, Jawahar Ravi Yojna, Seed Stage Funding as grant-in-aid to Startups, Idea/ Pre-Seed Stage Funding, etc.

On the second day of the workshop i.e. 24/02/23 students visited Jawaharlal Nehru Krishi Vishwavidyalaya. The resource person Dr. Anita Babbar, Head, Department of Plant Breeding and Genetics gave deep insights on mass cultivation and harvesting procedures of different varieties of Grams. Dr. Jyoti Kujur, Senior Research Fellow, gave practical demonstration of cross pollination in gram.

The students then visited Department of Horticulture and plantations in the fields where they got exposure on application of statistics in the field of agriculture. Dr. Rehan Azmi, gave information about nursery management and cultivation of economic crops. Students got an opportunity to witness varieties of crops namely broccoli, cabbage, cauliflower, brinjal, tomato, bottle guard, onion, garlic, spices like blackpepper, fenugreek, carrom, fennel, chilli. They also happened to visit hybrid and grafted crops like pea with edible pods, mango, etc.

St. Aloysius' College (Autonomous) , Jabalpur Department of Computer Science Five Days Workshop on “ Designing Circuits using Internet of Things”

The Department of Computer Science orchestrated a comprehensive 5-day workshop focused on the Internet of Things (IoT) for its undergraduate students. The primary aim was to acquaint students with the latest trends in technology. Guiding the workshop was Mr. Vivek Singh, the esteemed Director of Eagle Foundation Logical Lab Private Limited, located in Jabalpur. The workshop, held on the 3rd, 4th, 7th, 9th, and 10th of January 2023, proved to be an immersive educational experience for the participating students. To enhance their practical skills, hands-on training was provided using the cutting-edge D1R1 Board. The workshop was skillfully managed by Mr. Swapnil Justin, who served as the coordinator, ensuring the seamless organization and execution of the event. The guest instructor, Mr. Vivek Singh, brought his extensive expertise to the table, enriching the learning process and offering valuable insights into the world of IoT. The event catered exclusively to undergraduate students, with a limited capacity of 50 seats.

Internship
On
Basic Cyber Security Techniques and Related Tools
Organized by
Department of Computer Science

Date – 9th – 16th January, 2023

An internship on 'Basic Cyber Security Techniques and Related Tools' was provided by certified trainers and professionals from IT CELL at St. Aloysius College (Autonomous), Jabalpur, to 60 students from Government M. H. College of Home Science & Science for Women College. The internship took place from January 9th, 2023, to February 16th, 2023.

During this internship, 19 interns from B.Sc. I-year (CA Major) and 41 interns from B.Sc. I-year (CS Major) received basic training in Cyber Security techniques. They were given live demonstrations on topics such as phishing attacks, wireless remote access, and the use of various online and offline computer and network analysis tools, social media password tracking scripts, and devices. Upon completing this training, they worked within the IT CELL, which is involved in various activities including software development, data entry, ERP maintenance, and managing various institutional portals.

The interns also gained exposure to the Data Center, CCTV Center, Networking unit, and had hands-on experience with various tools such as Hardware Firewalls, UTM (Unified Threat Management), Servers, VPS (Virtual Private Servers), Routers, and more. The last module of the internship focused on learning and practicing countermeasure techniques to equip them with the knowledge necessary for safeguarding themselves during online transactions and shopping.

Education visit

Under the Banner of Star College Scheme Department of Chemistry Organized Education visit on 2nd February 2023 to Pesticides Residue Analysis Laboratory in ICAR, Directorate of Weed Research, for 30 students of UG and PG. In this Visit students were educated by Senior Scientist about the use of Chromatographic techniques for the analysis of pesticides residue. The instruments like GC-MS LC-PDA and LC-MS were also demonstrated to the students.

Prologue

- Sericulture is an important agro-based, labour intensive and export oriented cottage industry. It holds promise as an employment generating industry, especially in rural and semi-urban areas. India enjoys the unique distinction of being the only country in the world to produce all four varieties of silk viz. mulberry, tasar, eri, and muga. Muga is produced only in India.
- India ranks second in the world, after China in silk production especially mulberry silk. Madhya Pradesh ranks 3rd in non-traditional states of India.
- Sericulture is next to Handloom sector in generating employment.
- Silk is an export oriented product and is exported to more than 50 countries like USA, U.K., Italy, UAE and Saudi Arabia. Some European and Asian countries are main buyers of Indian silk.

- With a broad agriculture base, sericulture is seen as an effective tool for rural development and reconstruction.
- Labour intensive in nature, sericulture is mainly a cottage industry in India, providing livelihood to more than 8 lakh families. Approximately around 6 million people are engaged in sericulture and silk production.

Workshop on “ National Statistical Office (FOD) cum Quiz Competition Schedules

St. Aloysius' college organized a Workshop on “ National Statistical Office (FOD) cum Quiz Competition Schedules “ on 16/03/2023 , as a collaborated effort of Department of Commerce , Management and Economics , More than 100 students participated in the workshop followed by Quiz , where 9 students of Commerce won the prize . The workshop was an eye-opening and motivation session for the students in the field of research .

Resource Persons of the session were

Shri .Srimant Kumar , Joint Director .

By R.K Choubey , Senior Statistical Officer .

Prabjeet Dey , Senior Statistical Officer.

Deepak Pandey , Senior Statistical Officer.

A.K Pathak , Senior Statistical Officer.

Javed Akhtar ,J Transalation Officer .

Vaibhav Solanki , LDC .

2022-23

INDUSTRIAL VISIT TO 'SHIVSHAKTI PLANT TISSUE CULTURE INDUSTRY'

Plant tissue culture (PTC) has immensely contributed in the field of science for the last 75 years, particularly, in the latter half of the 20th century after the discovery of somatic embryogenesis and other associated findings/techniques. The technique is highly reliable in tapping the economic potentials of medicinal and crop plants. PTC also plays a pivotal role in industry, agriculture, and plant breeding as it complements crop production through micropropagation, synthetic seed formation, somaclonal variation, hybridization, genetic transformation, pathogen eradication, and by preserving germplasm.

The Department of biotechnology organized an industrial visit to “Shivshakti Biotechnologies Ltd”, a plant tissue culture industry at Gosalpur on 4th February 2023. Students of BSc 3rd year and M.Sc along with faculty members Mr. Nitin Swamy, Mr. Enosh Phillips & Dr. Anisha Rupashree visited the industry. Shivshakti Bio Technologies Ltd. is working in research, development and testing services, Bulk fertilizer and agrochemicals. The industry is effectively producing the *invitro* plants of Teak and Sal plants on large scale and supplying throughout the country. It was a very fruitful visit for the students. They have gained knowledge about the agriprenurship and several start up ideas in the field of Plant tissue culture.

Expert Talk on The Genomic Epidemiology of Monkeypox Virus: A Global Concern

Human genomic epidemiology is a rapidly growing field focused on understanding how genomic variation influences human health. Although epidemiology has its origins in the eighteenth-century, genetic epidemiology is a decidedly twenty-first century science.

Department of Biotechnology, St. Aloysius College, organized an online expert talk on “**The Genomic epidemiology of Monkeypox virus: A Global Concern**” on 20th August 2022 from 12:30 PM onwards. The distinguished speaker of the program was **Dr. Abhinendra Kumar, Research Scientist-V from National Institute of Virology, Indian Council of Medical Research, Pune**. He enlightened various aspects of infection from Monkeypox Virus (MPxV), its origin, incubation as well as invasion period. He also explained the surveillance rate of MPxV in India. He concluded with the preventive measures, vaccines and recommendations by WHO to prevent and cure the disease.

About 60 students were present in the talk. The lecture was chaired by Principal Fr. Dr. G. Vazhan Arasu, St. Aloysius College, Jabalpur. The program was concluded with a vote of thanks by Dr. L. K Pandey, HOD, Department of Biotechnology. The program was successfully conducted by kind cooperation of faculty members Mr. Enosh Philips, Mr. Nitin Swamy, Dr. Rumana Faraz and Dr Anisha Rupashree.

Expert Talk on Bioinformatics

Bioinformatics is an interdisciplinary field that develops methods and software tools for understanding biological data, in particular when the data sets are large and complex. Keeping in view the importance of these tools, the Department of Biotechnology organized a two day online expert talk on **Bioinformatics** on 27-28 Feb from 7:00pm-8:00pm.

The distinguished speaker of the program was **Ms. K.Srividya ,Project Research scholar, CSIR. CCMB, Hyderabad**. She enlightens the importance and utility of bioinformatics in genomics and genetics, particularly those areas of genomics involving large-scale DNA sequencing. She also discussed the creation and advancement of databases, algorithms, computational and statistical techniques and practical problems in analysis of biological data. The speaker gave a detailed explanation about BLAST, NCBI, Primer designing and its usage.

She concluded that the ultimate goal of Bioinformatics is to uncover the wealth of biological information hidden in the mass of sequence, structure, literature and obtain a clear insight of the fundamental biology of the organisms and use this information to enhance the standard of life for mankind.

About 50 students participated in the talk. The program was concluded with a vote of thanks by Ms Aashi Vishwakarma, MSc II sem and Ms.Mansi Dubey, BSc III year, Dept. of Biotechnology. The program was successfully conducted by kind cooperation of faculty members Dr. L. K Pandey, HOD, Department of Biotechnology Mr. Enosh Philips, Mr. Nitin Swamy, Dr. Rumana Faraz and Dr Anisha Rupashree.

REPORT ON TRIP TO 'AGADYATI'

For a nation to grow, develop and contribute in various fields, a healthy society is mandatory. 'Agadyati Herbs and Food Private Limited' is a registered startup located at Kundam, Jabalpur, M.P. and is funded by the Indian Government. This start-up works with a vision to provide healthier and natural alternatives for chemically treated and harmful products in the market and to decrease the risk of side effects and various diseases.

Department of Biotechnology, St Aloysius College, Jabalpur organized a trip to Agadyati on 17 September 2022, for PG students to create awareness regarding organic farming and establishment of a start-up to a commercial level. About 21 students and departmental faculty members participated in the trip. It was a huge success as students cleared all their doubts concerning the organic farming procedures, establishment of a start-up, fundraising for start-ups, etc.

Mr. Ambika Prasad Patel, Founder & CEO of Agadyati Herbs & Food Private Limited manufactures many kinds of herbal and ayurvedic products. This foundation is promoting Organic farming by inspiring and motivating the agricultural community of India by conducting awareness programmes for modern agricultural practices and providing the knowledge of many other sectors of profit to farmers and youngsters. They are promoting sustainable agriculture, high-quality products and the use of processes that do not harm the environment, or living beings that is maintaining the ecological balance.

Their main products include organic production and manufacturing of Stevia plant powder which is 100% natural, contains zero calories and a natural sweetener, 30% sweeter than the sugar.

A MOU was signed between the Department of Biotechnology, St Aloysius College (Autonomous), Jabalpur and 'Agadyati Herbs and Food Private Limited', Jabalpur in order to enhance the relationship between Industry and Academia. This collaboration will serve as a platform for cross learning and sharing of knowledge, best practices on Innovation, incubation and start-up ecosystem development.
