Skill Enhancement Program on "Hands-on Basics of Python"

The Department of Computer Science successfully hosted a 5-day online Skill Enhancement Program focused on 'Hands-on Python' from August 22nd to August 26th, 2022. The primary objective of this program was to introduce school and college students to the highly sought-after programming language, Python. Participants gained practical experience with Python and gained insights into its future applications. The program featured Ms. Poorvi Gupta, a Technology Analyst at Infosys, and Mr. Ankur Srivastava, a Web Developer and Robotics expert at Redevolvers Automate Solution Pvt. Ltd., as guest speakers. Both speakers shared their knowledge and expertise, inspiring the students. Under the supervision of Ms. Mala Das, the program witnessed the active participation of 60 registered students. Approximately 55 to 40 students engaged in the daily sessions with enthusiasm, demonstrating a keen interest in learning this exciting programming language. For five days, students familiarized themselves with the fundamentals of Python, igniting their passion for coding. The instructors, who were not only skilled but also approachable, ensured that students were well-equipped with insights into potential career paths in coding. Notably, participants hailed from diverse academic backgrounds, including 12th-grade students and those in their first year of college. The feedback received from participants was overwhelmingly positive, motivating us to consider organizing similar events in the future. As the program concluded, students were encouraged to set their own milestones, drawing inspiration from the instructors who have successfully navigated the industry. Overall, the program proved to be enlightening for both participants and organizers. Students relished the experience and expressed a strong desire for more in-depth classes to further enhance their Python skills and knowledge.
