Inward Onward Journey

The inward onward journey is a concept that encapsulates the continuous process of self-discovery, growth, and evolution. It involves delving deep into one's inner world to understand oneself better, while also propelling forward on the path of personal development and realization of goals. The inward onward journey is a continuous cycle of self-exploration and growth. As individuals evolve and change, so too do their understanding of themselves and their aspirations. What starts as a journey of self-discovery may evolve into a quest for meaning and fulfillment, driving individuals to seek out new challenges and opportunities for growth. To keep this journey on track, the IQAC organizes Inward Onward practice every year so that employees can feel self-improvement and development.
