St. Aloysius College

Report on Student Attributes

Introduction

St. Aloysius College aim is to facilitate use of ICT, skill-development, development of global competencies, and ultimately to make the learners enhance their potential to be of service to self and society. The motto of the college Virtus in Arduo – 'Strength through Striving' propels the Aloysian fraternity to overcome barriers through constant perseverance. It has carried a legacy of being a beacon of efficiency and excellence. Since 1951, the institution has upheld moral principles and ideals in order to maintain the greatest academic standards and produce individuals who are morally upright, independent, and socially conscious. Our institution works to provide the opportunities for students to achieve in all areas of their extracurricular, co-curricular, and academic goals. For values based learning and professional ethics the institution align the human values curriculum with WHO life skills goals. Following student attributes facilitated by the institution:

- 1. Discipline and Punctuality:** The most important life skill of an individual is Discipline and Punctuality. Therefore institution integrates this attribute in students' code of conduct to set a foundation for academic success and personal development.
- 2. Integrity:** One of the most crucial traits is integrity, which is the ability to be truthful to everyone and in all situations. The institution makes a genuine effort to foster social and personal integrity in its students.
- 3. Self-Awareness:** Students who are self-aware are better able to control their emotions, recognize their talents and shortcomings, and make wise judgments. The institution conducts many activities based on self-reliance, self-esteem and self-recognition.

DST-FIST Supported & Star College Scheme by DBT.

- 4. Problem solving skills:** Problem-solving skills are essential for students to navigate academic challenges, personal issues, and future professional situations. Institution take efforts to make our students skillful and enable them to identify problems, analyze situations, and implement effective solutions.
- 5. Decision making:** By providing a supportive environment, structured learning experiences, and practical opportunities, institutions equip students with the tools and confidence needed to make informed decisions. Various case based problems are integrated in curriculum where the students apply their minds, frame the problem, take decision variables, apply appropriate model and give effective solutions.
- 6. Interpersonal relationship skills:** As students manage their academic lives, form friendships, and get ready for the workplace, interpersonal connection skills are crucial. Students that possess these abilities are able to cooperate with others, handle conflict, and communicate well. Concept of mentoring is a regular exercise in the college where each student has a mentor teacher and every teacher is a mentor of a group having nearly twenty students.

9. Effective Communication skills: Effective communication helps students clearly articulate their thoughts and ideas, leading to better performance in written assignments, presentations, and class discussions. Clear communication between teachers and students enhances understanding of complex concepts and instructions. Participation in debate, extempore, conducting assemblies, group discussion, flipped classroom and presentations encourage effective communications skills in students.

10. Moral and Spiritual Values: Moral and spiritual values play a crucial role in shaping the character, behavior, and overall development of students. These values provide a foundation for ethical decision-making, personal growth, and a sense of purpose. Spiritual values foster empathy and compassion, enabling students to consider the impact of their actions on others. Regular Value Education classes conducted every Friday increase the sense of moral and spiritual responsibility.
