Reaccredited 'A+' Grade by NAAC (CGPA 3.68/4.00)

College with Potential for Excellence (CPE) by UGC

DST-FIST Supported & Star College Scheme by DBT.

Notebook Recycling Initiative

The college has launched a sustainable initiative to recycle notebooks by collecting used folders, extracting unused pages, and repurposing them into new notebooks using old folders as covers. These recycled notebooks are then distributed to under-resourced schools. This project not only reduces waste but also supports educational efforts by providing essential supplies to students in need, demonstrating the college's commitment to environmental sustainability and community support.

Collection of used folders

Journal Cover rebinding

Waste papers at St. Aloysius College are resourcefully repurposed into hard bindings for old journals. This sustainable practice is carried out by a physically challenged staff member, who not only contributes to the college's environmental efforts but also gains employment through this initiative. In recognition of his valuable work and to support his livelihood, the college provides him with financial support.

Soil Reuse

Training Programme on “Quality analysis of soil and soil waste to REUSE”

Training programme was conducted from 17/10/2019 to 18/10/2019.

It was based on the Physio-chemical analysis of soil and soil waste and compares the results with recommended standards. Instrumental analysis and chemical tests were used to check the following parameters, like moisture content, pH, EC, organic matter, calcium, magnesium, total phosphorus, total nitrogen, C/N ratio, sodium, potassium agreed with recommended standards. Total 40 students have attended the training program.

Learning Outcomes:

By the results of a soil analysis chemist can give an estimate of the amount of fertilizers or nutrients needed to supplement those in the soil.
