Repurposing Waste Materials

Unused resources such as desks, benches, doors, PCs, digital light processing projectors (DLPs), green boards, and library books are carefully refurbished at the institution. **Desks and benches**, along with **doors**, are repaired to ensure they are fully functional. **DLPs** are also repaired if out of order, with focus lights and lenses replaced as needed. **Library books** undergo rebinding to extend their usability. Once these items are refurbished, they are redistributed to other diocesan schools and colleges, supporting educational resources in a sustainable manner and reducing environmental waste.
