The term Intellectual Property implies to intellectual creativity such as invention, musical, literacy, symbol, design, name and ideas. IPR is a prerequisite for better identification planning and protection of invention or creativity. Patent is recognition to the form of IP manifested in invention and is granted for inventions which satisfy the requirements of novelty and utility under the stringent examination and opposition procedure prescribed in the Indian Patents Act, 1970. IPR and Patenting plays a key role in academic sector and thus an adequate legal framework for its process and protection is very much needed. The national training program on "Intellectual Property Rights and Patenting: A New Vision" offers a succinct but comprehensive account on IPR and patenting and its importance in industrial and scientific area.
