Monitoring the teaching-learning process, structures and methodologies of operation and learning outcomes by IQAC

To review the teaching learning process, Blooms' taxonomy is applied. For a better understanding of Blooms' taxonomy, workshops are being conducted by the Department of Education and IQAC. To operate and analyze teaching learning process the teachers prepare their teaching plan in DMS and entries are filled in the daily diary on the basis of their teaching plan. After both the entries it is reviewed and monitored by the respective Heads, Deans, Vice Principal and Principal.
